Subject: Re: Follow Up Letter and Consent for Entry Form - South Jersey Ice and Cold Storage, Vineland, NJ

Dwayne,

I have attached a copy of the sketch. General Refrigeration would be willing to do the project but they would not have a crew available until at least July 11.

I talked to Jack Kirk of Professional Pipe, Inc. from Peachland, NC yesterday. He was recommended by my engineer, Jack Piho. He is working on a job in Pennsylvania and is planning on stopping by to look at my situation. His company can do both the scrubber work and clean ice off of coils. He said he could probably be here early next week, I will let you know after I talk to him today.

Thanks,
Mark

Mark

Could you forward me a copy of the engineer's preliminary sketch?

Thanks

Ellen,

The sketch for the scrubber has been sent to Frank Nechay at General Refrigeration in Delmar, DE. I talked to him this morning and explained the urgency of the situation and he said he will get back to me as soon as he can.

Thank you,
Mark DiMeo
